PROFESSIONAL PROFILE

Frontend Developer with 4+ years of experience building scalable, high-performance web applications using **React, Next, Nuxt, Vue 3, and TypeScript**. Proven background in developing **SSR-enabled applications**, modular architectures, and shared UI components for production platforms with thousands of active users. Strong experience collaborating with cross-functional and international teams, delivering SEO-optimized, accessible, and maintainable solutions. Comfortable working in Agile environments with C1 English proficiency.

TECHNICAL SKILLS

Frontend - React, Next, Vue 3, Nuxt - TypeScript, JavaScript - Tailwind CSS, PrimeVue, Headless UI - SSR, SEO optimization - State management: Pinia, Redux

Testing & Quality - Unit testing with Vitest - Component documentation with Storybook

Backend & APIs - Node.js, Python - FastAPI, REST APIs - OAuth2 / JWT authentication

Cloud & DevOps - Azure (Container Apps, Azure DevOps Pipelines) - Docker - AWS (S3, Lambda, Cognito)

Databases - PostgreSQL, MySQL

PROFESSIONAL EXPERIENCE

Kubo S.A.S. — Frontend Developer

Bogotá D.C. | 2024 – Present - Designed and maintained **Nuxt / Vue 3 & React / Next applications** using TypeScript and modular architecture. - Implemented **SSR features** to improve SEO and application performance. - Built responsive and accessible UI components with **Tailwind CSS**. - Managed complex application state and data flows. - Collaborated closely with product, design, and backend teams to deliver new features and improvements. - Optimized front-end performance, improving load times and overall user experience. - Developed and integrated backend services using **Node.js and TypeORM** with **Relational Databases**.

Workana — Freelance Frontend Developer

Remote | 2022 – 2024 - Delivered end-to-end web solutions for multiple international clients in e-commerce and services. - Built scalable front-end applications using **Vue, React, Next.js, and TypeScript**. - Integrated RESTful APIs and authentication flows. - Implemented backends using **FastAPI**, including automated documentation and testing. - Worked independently with remote stakeholders, ensuring timely and high-quality deliveries.

FEATURED PROJECTS

True Blue — Subscription-based Pet Food Platform | Frontend Developer

- Developed a **subscription-based e-commerce platform** where users pay a **monthly recurring subscription** to receive pet food deliveries.
- Built with **Vue 3 and Nuxt 3**, leveraging **SSR** for improved SEO and performance.
- Implemented responsive, accessible UI using **Tailwind CSS**.
- Integrated **dLocal payment gateway** to manage secure **recurring subscription payments**.
- Implemented and consumed **webhooks** to handle recurring payment events and **order status lifecycle updates**.
- Platform currently serves **5,000+ active users in Colombia**, with architecture designed to support **international expansion**.
- Collaborated with backend services for authentication, subscription management, and order processing.
- Focused on performance optimization and user experience for high-frequency recurring customers.
- Technologies: **Vue 3, Nuxt 3, TypeScript, Tailwind CSS, dLocal, Webhooks, SSR**.

Travel & E-commerce Platforms — Frontend Developer

- Developed SSR-enabled Nuxt applications focused on performance, SEO, and scalability.
- Implemented modular UI components and shared libraries to ensure design consistency.
- Technologies: **Nuxt 3, Vue 3, TypeScript, Tailwind**

CSS. Professional Networking Platform (Football Industry)

- Built a responsive, multi-functional platform supporting job applications, chat, and video calls.

- Optimized UX across desktop and mobile devices.
- Technologies: **Nuxt 3, Vue 3, TypeScript, Tailwind CSS**.

API Development Projects — Full-Stack Developer

- Designed and implemented REST APIs with **FastAPI**, including authentication and data management.
 - Applied automated testing and API documentation best practices.
 - Technologies: **Python, FastAPI, PostgreSQL, JWT**.
-
